STRENGTHS

- End-to-end product ownership
- Complex AI and financial workflows
- Research-led product strategy
- Systems thinking and interaction craft
- Cross-functional leadership
- Teaching, critique and mentoring

DOUBLE DIAMOND

- Discover: interviews, JTBD, market and competitor research
- Define: synthesis, opportunity framing, journeys and priorities
- Develop: concepts, flows, wireframes, prototypes and visual systems
- Deliver: usability testing, iteration, specs and engineering partnership

Marianna Gonchar

Senior Product Designer

AI · FINTECH · COMPLEX DIGITAL PRODUCTS

I turn complex problems into clear, useful product experiences. 10+ years across startups, agencies and nonprofit work, combining research, product strategy and hands-on design from discovery through delivery.

SELECTED IMPACT

- Lumio: completed 32 of 35 planned interviews; delivered 200+ screens and 14+ microprototypes for a couples-finance experience.
- Separate 30-day onboarding experiment reported partner invitations rising 19%→44% and bank connections 55%→71%.
- Semaverse: redesigned core document and AI-agent workflows for a high-stakes investment platform, improving clarity, traceability and recovery.

EXPERIENCE

Awesomic

Sep 2021 — Present

Senior UI/UX Designer

Product and website design across fintech, crypto, logistics, cybersecurity, healthcare, entertainment and beauty.

- Designed complex products including Welltrax logistics and Coinflix entertainment, alongside marketing websites.
- Delivered work from research and market analysis through user scenarios, flows, prototypes and live usability testing across web, iOS and Android.

Semaverse

Sep 2023 — Jan 2026

Product Designer · Solo designer

End-to-end design for an AI investment platform working with complex financial data and documents.

- Led research, interaction design, interface design and rollout across document upload, saving, versioning, tables and forms.
- Defined AI-agent interactions and explicit viewing, editing, processing and saved states so users could understand, review and recover system actions.
- Validated workflows with research and usability testing; partnered with engineers on feasibility, edge cases and reusable patterns.

Lumio

Jan 2022 — 2025

Product Designer · Solo designer

Personal-finance product helping couples and families understand shared spending while preserving individual control.

- Owned couples-spending design from research and product definition through testing, delivery and design-system updates.
- Completed 32 interviews; translated seven macro jobs to be done into a focused first release for shared expenses across separate accounts.
- Delivered 200+ screens and 14+ microprototypes; designed contribution breakdowns, recurring payments and transaction-level share/hide controls.
- Worked with product, engineering and leadership; used feedback and product data to identify activation opportunities.

METHODS & CRAFT

- Product discovery and problem framing
- Interviews, JTBD and research synthesis
- Information architecture and service flows
- Low- to high-fidelity prototyping
- Moderated usability testing
- Design systems and responsive UI
- Motion, microinteractions and UX writing

CREATIVE EXTENSIONS

- AI-assisted game design and concept exploration
- AI-assisted 3D modelling workflows
- Illustration and visual storytelling
- Interactive prototyping across the Double Diamond

TOOLS

Product & prototype

Figma · Sketch · Adobe XD · ProtoPie · Principle · InVision

Research & collaboration

FigJam · Miro · Maze · Notion · Jira · Trello

Visual & motion

Photoshop · Illustrator · After Effects · Midjourney · Keynote

AI-assisted design

ChatGPT · Claude · Codex · Cursor · v0 · Lovable

Web & delivery

Webflow · Framer · Vercel · GitHub · Zeplin

Analytics

Mixpanel · Amplitude · Hotjar · Google Analytics

EDUCATION

Master's, Project Management
National Academy for Public Administration

Graphic Design · UI/UX Design
Projector

UI/UX Design
Uprock

Experience & capabilities

Selected work across product, web, mobile and emerging technologies

Projector Institute

May 2023 — 2025

UX Design & Mobile Interface Course Curator

Teaching and mentoring designers through practical projects and real-world product thinking.

- Guide students through industry practices, critique, references and applied design work; support independent problem-solving and growth.

Webhub Software

Feb 2021 — Dec 2021

UI/UX Designer

Mobile and web product design for crypto and fintech applications.

- Worked from market analysis and user research through personas, flows, wireframes, prototypes and live testing; partnered with designers in Agile delivery.

Content.UA

Feb 2020 — Feb 2021

UI/UX Designer

UX/UI and graphic design for digital agency clients including Cisco, Winncom and ERC.

- Created design systems and digital/print materials; designed interfaces, websites, vectors, icons and campaign assets.

Lumos

Nov 2016 — Feb 2020

UX Design Consultant · Office of the Ombudsman for Children's Rights

Design and communications work through the nonprofit Lumos.

- Delivered design and content implementation, analytics, reporting and copywriting; supported social-channel optimisation, PR events and public outreach.

SELECTED PORTFOLIO SCOPE

AI investment tools · personal finance · mobile entertainment · counseling education · aviation weather intelligence · voice-first notes · connected home energy · responsive fintech websites
